

Colorado Springs Utilities

It's how we're all connected

448-4800

Located at the base of Pikes Peak, Colorado Springs Utilities is a four-service municipal utility and committed to providing safe, reliable natural gas.

The natural gas distribution system serves approximately 197,000 metered accounts within a 527 square mile service area. In addition to the City, the service area includes Manitou Springs, the military and certain unincorporated portions of El Paso County.

The system is comprised of approximately 5,300 miles of steel and plastic pipe, which range in size from ½" plastic to 20" steel. The system operates at pressures ranging from 2 psig to 150 psig. Annually, we provide approximately 24 billion cubic feet of natural gas at 14.73 psia to our customers.

Colorado Springs Utilities reminds customer to know what's below and CALL 811 prior to excavation. We also remind customers to use their senses around natural gas. To learn more visit our website.
