Bridger Pipeline LLC operates the Powder River Pipeline crude oil gathering receipt points in central Campbell County, WY and delivery to Rocky Mountain Pipeline at Reno, WY. Bridger Pipeline LLC also operates the Butte Pipeline a 16", 323 mile crude oil pipeline system from Baker, Montana to Ft. Laramie and Guernsey, Wyoming. The system gathers crude from the Cedar Creek Anticline area near Baker and transports, via other incoming pipelines, crude from the Williston Basin, Eastern Montana and Canada. Deliveries of several different crude grades on the system are made to connecting carriers at Ft. Laramie and Guernsey, Wyoming.

Bridger Pipeline LLC, Belle Fourche Pipeline Co and Butte Pipeline are a part of the True companies of Casper, Wyoming operating over 3,400 miles of pipeline systems in western North Dakota, eastern Montana and Wyoming.

**COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT**

Safety is of utmost priority to Belle Fourche Pipeline Co., Bridger Pipeline LLC and Butte Pipe Line Company. An excellent pipeline safety record is achieved thru employment of highly qualified staff that is thoroughly trained in a variety of pipeline operation, maintenance and safety related issues. In the event of an emergency, our staff are readily trained, prepared and equipped to respond to any emergency in a safe and environmentally responsible manner.
