WBI Energy Transmission transports natural gas. Our steel coated pipelines vary in size from 2 inches to 24 inches in diameter. The maximum operating pressures range from as little as 100 lbs. to 1,468 lbs. Our computerized gas control center monitors the system 24 hours a day and can be reached at 1-888-859-7291.

EMERGENCY RESPONSE

If a pipeline is damaged, even if the damage only appears to be minor, please notify us immediately. It is important that we evaluate and have the opportunity to repair any damage, no matter how minor.

Pipeline emergency action will begin the moment we are notified of the situation. Personnel and equipment will be dispatched to identify the emergency, control the flow of gas and make necessary repairs. We will coordinate our actions with fire, police and other public officials.

PRODUCTS TRANSPORTED IN YOUR AREA*

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
HEALTH HAZARDS	Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.	

EMERGENCY CONTACT: 1-888-859-7291
