

**ABOUT BRIDGER PIPELINE LLC COMPANY**

Bridger Pipeline LLC is a liquids operator in North Dakota, eastern Montana, and Wyoming with the ability to gather crude oil at Poplar, Fisher, Richey and Glendive for delivery to Butte Pipeline near Baker, Montana for further transportation to Guernsey, Wyoming. Bridger's Four Bears Pipeline is a 10" line that transports crude from various pipelines in North Dakota to Butte Pipeline at Baker, Montana for further transportation to Guernsey, Wyoming.

**WHAT DOES BRIDGER PIPELINE LLC DO IF A LEAK OCCURS?**

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

**MAINTAINING SAFETY AND INTEGRITY OF PIPELINES**

Bridger Pipeline LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most active pipelines are monitored 24 hours a day via manned control centers. Bridger Pipeline LLC also utilizes aerial surveillance and/or on-ground observers to identify potential dangers. Control center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Motor operated control valves are utilized to isolate a leak.
