1-800-762-3404

On our own behalf and for our affiliated companies, Chevron Pipe Line Company operates pipeline assets that transport crude oil, refined petroleum products, liquefied petroleum gas, natural gas and chemicals within the United States. Volumes in our network of approximately 10,000 miles of pipe reach nearly 1.13 million barrels and 1.3 billion cubic feet (Bcf) of natural gas on a daily basis. We move additional volumes through joint ventures with other companies.

Green line indicates the approximate location of the pipeline. For exact location information, please contact the local office.

Chevron Pipe Line operates in the following counties in Utah:
