Montana Natural Gas Fact Sheet

OUR SERVICE

Havre Pipeline provides transportation of natural gas from over 1000 wells in a safe and dependable manner. We operate one of Montana's largest natural gas fields though 1000 miles of pipeline. Gas is compressed at 11 different compressor stations in 3 counties located in north central Montana. Combined, the stations have a total of 25,000 horsepower.

Havre Pipeline Company LLC is a partnership owned by NorthWestern Energy.

OUR COMMITMENT TO SAFETY, HEALTH AND ENVIRONMENT

NorthWestern Energy is committed to public safety, protection of the environment, and operation of its facilities in compliance with all applicable rules and regulations. NorthWestern Energy adheres to the regulatory oversight of the Office of Pipeline Safety in the U.S. Department of Transportation. The company is proud of its safety record and follows many regulations and procedures to monitor and ensure the integrity of its pipelines.

Blaine Hill
Chouteau

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

EMERGENCY CONTACT: 1-888-467-2669

We're on call 24 hours a day to respond to your emergencies. Make sure you place your call from a telephone located far enough away from the danger area. Be sure to tell us the following information:

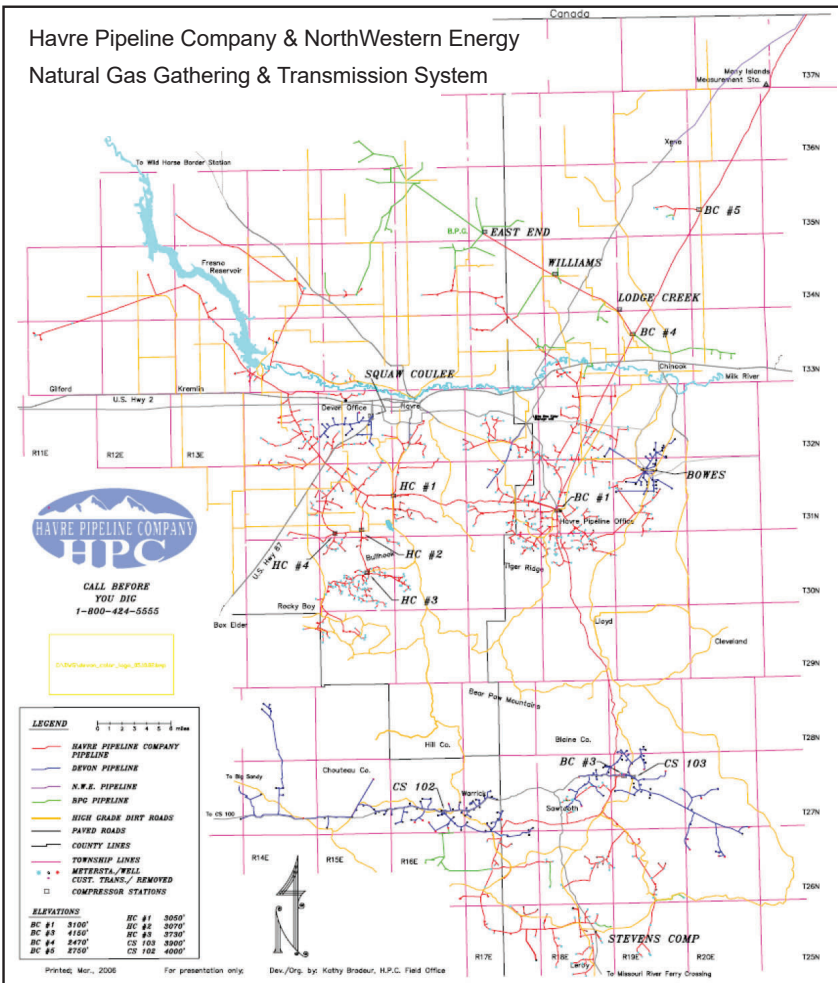

- The location including the street address and city where the incident is taking place
- Details of the incident
- Whether gas is leaking or burning inside or outside
- Details of any evacuations (numbers of people affected and the area affected)
- Your name and organization

EMERGENCY RESPONSE PLANS

For additional resources specifically concerning natural gas training and/or review of NorthWestern Energy's emergency response plan contact:

NATURAL GAS INCIDENTS

Please familiarize yourself with these general rules.

When Natural Gas is Escaping Outside and Burning	When Natural Gas is Escaping Inside and Burning
<ol style="list-style-type: none"> 1. Clear the area. 2. Call NorthWestern Energy's emergency number (1-888-467-2669) 3. Let the natural gas burn until the source of the fuel is shut off. 4. Prevent ignition of nearby combustibles. 	<ol style="list-style-type: none"> 1. Clear occupants from the building. 2. Call NorthWestern Energy's emergency number (1-888-467-2669) 3. Let the fire burn until the gas has been shut off. 4. Shut off gas at the meter if safe to do so.
When Natural Gas is Escaping Outside and Not Burning	When Natural Gas is Escaping Inside and Not Burning
<ol style="list-style-type: none"> 1. Clear the area. 2. Call NorthWestern Energy's emergency number (1-888-467-2669) 3. Close air intake sources, such as windows, doors, and ventilation systems in nearby windows. 4. Reroute or restrict traffic. 5. Remove or extinguish open flames. 6. Prohibit smoking. 7. Do not use anything electrical including lights, switches, or phones, or take any other actions that might produce sparks. Turn any equipment or vehicles off, if possible, because running equipment can be a source of ignition. Leave the equipment in place - do not try to move it out of the gaseous environment. 	<ol style="list-style-type: none"> 1. Clear occupants from the building. 2. Call NorthWestern Energy's emergency number (1-888-467-2669) 3. Turn off gas supply if safe to do so. 4. Eliminate sources of ignition. 5. Ventilate the building by opening windows and doors. 6. Do Not - <ul style="list-style-type: none"> • Allow smoking • Ring the doorbell • Use the telephone • Operate electrical switches (on and off) • Pull the electric meter • Use power fans or exhausters
<p>If it is necessary to close or turn off a natural gas valve before NorthWestern Energy arrives, leave it closed until NorthWestern Energy personnel can restore service.</p>
