The Enterprise family of companies is one of North America's largest midstream energy networks, providing services to producers and consumers of natural gas, natural gas liquids (NGLs), crude oil, refined products, liquefied petroleum gases (LPGs) and petrochemicals. The assets of the combined entities include: more than 51,000 miles of onshore and offshore pipelines that transport and gather natural gas, NGLs, crude oil, petrochemicals, LPGs and refined products such as gasoline, diesel and jet fuel.

**COMMITMENT TO SAFETY, HEALTH, & ENVIRONMENT**

As a pipeline owner, operator and your neighbor, Enterprise is committed to safely operating its pipelines. Your awareness and understanding of pipelines will enhance your personal safety as well as that of others. Enterprise's pipelines transport a variety of products under pressure such as natural gas, natural gas liquids (NGL), liquefied petroleum gas (LPG), crude oil, refined petroleum products and anhydrous ammonia.
